

When we suddenly lose someone so dear to us and the questions are never answered to our satisfaction, how do we find closure? I feel the need to reread this book, to learn once more about healing and honoring the memory of our lost loved ones.

I LOVED this book! I have never lost anyone the way the Young's did and Cynthia's writing put me right there in the moment. It was absolutely fascinating being walked through the process of a search and rescue. Although I hope I never have to experience it for myself, this book was a beautiful memoir on how to deal with a tragedy of this nature.

I just finished your book.

Unfortunately my writing skills are no where near yours or Tim's. I am at a loss for words about your book. I am humbled, inspired, and thankful that you blessed us with yours and Tim's story.

Thank you for sharing your heartache so that others can hear your story and be inspired!

Having grown up with the family, I was very interested in the story. It was disturbing to hear how the accident unfolded and that there are still lingering questions. I'm glad Cindy was able to put it in writing to help her with closure.

I could not put this book down. It drew me in and held me captive until the last entry. I was totally immersed in the pages, and it gave me a new and insightful take on love and loss. Bravo!

Cynthia: I'm so thankful that Steve Chao and I found the wreckage of your brother's plane. I believe God's hand lead us to it. I'm sorry you and your

family went through all this. Thanks for writing a book about it. I am going to buy a copy and read it. Alex Kennedy

When I began reading this book, I couldn't put it down. I was inspired by the journal entries as well as the determination of the family. From the beginning to the end I felt that I had entered the family and was going through the struggle to find Tim as well as the struggle to accept losing him. Simply a beautiful book, easy to read and one that enriches one's life.

A harrowing and bittersweet story of a family's love and loss. The author lovingly navigates and details the search for her brother lost in the Alaskan wilderness.

This book was proof that some families will go to the ends of the earth to find a missing family member. Through the author's personal accounts, her father's journal entries, and newspaper and media reports, the reader can feel the immense amount of love for their missing family member. The author was also able to capture the essence of her brother and make the reader feel as if they knew him.

The additional journal entries of the author's missing brother create a haunting and suspenseful tale that everyone should read.

~~~~~

A well crafted story using a combination of the author's story, her late father's search diary and her missing brother's prophetic journal from the past. Her ability to intertwine these three sources, as well as a treasure trove of black and white photos and newspaper clippings gives the reader strong insight into the highs and lows that this family has experienced.

Although grief is unique to the individual experiencing it, there is a support, understanding and healing that can be provided and shared by others that have gone through similar loss or experience. Because of Cynthia's courage to share this amazing story, I am positive that many will find a level of comfort in some of their most challenging times, just as I did.

This book is an amazing story that inspires us to hold dear those whom we love. It is hard to even contemplate how much loss this family had to endure. What a tragic story that eventually leads to healing. Amazing!! Cynthia is an amazing soul! A must read.

~~~~~

With a writing style and approach just perfect for this story, Cynthia brings us, the readers, into her life and loss. For those who have lost a loved one, it is personally poignant. For others, it offers an intimate reminder to cherish and appreciate those close to us... even (or especially) the free spirits.

I am not much of a reader, but I could not put this book down. The author's memories and the journal entries from her brother, who was lost in the plane accident, opened your heart and mind as you feel the fear, sadness and questions that come about by this tragedy
